

TDD com Ruby on Rails, RSpec e Capybara

Jackson Pires

The background is a solid green color. It is decorated with various geometric shapes in a lighter shade of green, including squares, circles, and crosses. Some of these shapes are solid, while others are hollow. They are scattered across the background, some appearing as small icons and others as larger, more prominent shapes. The overall aesthetic is clean and modern.

Testando Models

Gerando um model

```
rails g model Category description:string
```

```
rails g model Product description:string  
price:decimal category:references
```

Model Specs

<https://relishapp.com/rspec/rspec-rails/v/3-7/docs/model-specs>

Gerando um spec para model

```
rails g rspec:model product
```

Primeiras Specs

- Quando instanciado com atributos válidos, o model deve ser válido.
- Validações devem ser testadas.
- Métodos de classe e instância devem executar corretamente.

Specs

- **Product**

- It "is valid with description, price and category"
- It "is invalid without description"
- It "is invalid without price"
- It "is invalid without category"
- It "return a product with full description"
